The Creative Parchment Range Family Tree Sticker Charts

Download the free sticker templates from our website. Use your word processor to fill in your information, then print the stickers on your printer and transfer them to the chart so no more mistakes. It really is that simple.

Removable stickers are suitable for both inkjet and laser printers

The sticker sizes used on these charts are: Large boxes - 72 x 63.5 mm Smaller boxes - 48.9 x 29.6mm

"My grandfather was one of 15." - These charts are the perfect solution as the large boxes give you plenty of scope for adding siblings, second marriages, photographs and additional information.

By including the starting individual and their children and grandchildren in the same box you increase the number of generations displayed by two.
